# MAXELL NATHANAEL

Computer Science student at Universitas Multimedia Nusantara with practical software engineering experience. Experienced in building secure web systems with Laravel, PHP, MySQL, and RBAC authentication, while exploring modern technologies like Machine Learning and UI/UX design.

## Education Level

Jul 2020 – Aug 2023

**SMAK Kanaan**

Kota Tangerang, Banten

*High School Diploma, 87.80/100.00*

- Project IDPBL
- English First Spelling Bee 2015 Tangerang City
- English First Spelling Bee 2019 Tangerang City

Aug 2023 – Aug 2027  
(Expected)

**Universitas Multimedia Nusantara**

Bachelor Of Computer Science, 3.50/4.00

Tangerang Selatan,  
Banten

## Work Experience

**PT. Indofood CBP Sukses Makmur Tbk.**

Feb 2026 - May 2026

Kec. Cikupa, Kabupaten Tangerang, Banten

Software Developer Internship

- Engineered Role-Based Access Control (RBAC) and a multi-level approval workflow for 4 distinct user roles (Admin, Supervisor, Personnel, Superadmin), securing inventory transactions and reducing stock mismatch risks.
- Implemented system security mechanisms including a 5-attempt login lockout threshold, IP blocking, and real-time notifications to secure database logs.
- Executed 29 functional test cases via Black-Box testing, achieving a 100% pass rate across all roles, and compiled a comprehensive User Guide to facilitate onboarding for production personnel.

## Project

**Interactive Tourism Web App**

May 2024

- Engineered a responsive 5-page tourism web application integrating Google Maps API for real-time location mapping, streamlining navigation and destination discovery for visitors.

**Kantin UMN Mobile Application (UI/UX Design)**

May 2025

- Designed an interactive high-fidelity mobile prototype in Figma for UMN University Canteen, conducting user task analysis and building design systems to optimize UI navigation and user experience.

**School Web Management System**

January 2025

- Engineered a full-stack web application with Laravel and MySQL featuring dual-role RBAC authentication and a dynamic Content Management System (CMS), enabling school administrators to independently manage announcements and news content.

## Organisational Experience

**MAXIMA 2025 - Universitas Multimedia Nusantara**

Dec 2024 - Nov 2025

Tangerang Selatan, Banten

Fundraising Department

- Managed internal cash inflows, raising Rp 12,636,000 from 11 divisions to support event operations.
- Coordinated 5 paid promotion packages and secured 20 external tenant agreements before event deadline.
- Optimized promotion upload and financial penalty workflows (Dec 2024 – Nov 2025) to maintain operational efficiency.
